

Clinical and Life Sciences

Designed for future doctors, dentists and biomedical innovators.

GLOBAL STRATEGIC PATHWAYS

For families seeking a clear pathway into Medicine and competitive life science degrees, OIC provides structured, strategic preparation. Students typically study Chemistry, Biology and Mathematics -supported by subject specialists and tailored university guidance.

The Global Strategic Pathways Advantage

Every pathway at OIC is part of a wider Global Strategic Pathways framework aligning academic choices, enrichment, and university preparation from the outset. This ensures students build a clear, competitive portfolio while developing the broader skills top universities value.

What sets this pathway apart is intentional portfolio design:

- Clinical Thinkers and medical ethics enrichment
- Work experience and reflective practice
- Olympiad participation
- Structured interview and admissions test preparation
- Universities look for evidence of scientific depth, resilience and empathy and our students demonstrate all three.

The Outcome

Strong representation in Medicine at leading UK and global universities, including Oxford, Cambridge, UCL, Imperial, and top medical schools in Asia.
