Environmental Policy

This is a policy document that relates to Oxford International College and its place within the environment.

Oxford International College and its staff endeavour to respect all local and global environmental issues.

In order to achieve this, we strive to:

- Ensure that the daily operation of Oxford International College does not cause a nuisance to others.
- Use equipment and facilities in a way that is safe.
- Safely and correctly handle and dispose of waste products and materials.
- Safely contain and dispose of or recycle chemicals, liquids, solids and gases in accordance with guidelines and good operating practices.
- Promote environmental awareness and generally encourage our staff and students to raise issues of concern or make recommendations where this is necessary.
