

Digital Christmas IGCSE Revision Programme

Oxford International College Academy's Digital Christmas Revision Programme is a new addition to the OIC portfolio, for students wanting to consolidate their IGCSE subject understanding, and to ease some of the pressure ahead with regards to students' revision schedule in the upcoming year.

By spending just a few study days with OIC mentors and tutors during our IGCSE Christmas revision programmes, students can maximise this opportunity and return refreshed and fully prepared for the new school term.

This programme is delivered in partnership with Oxford Science Studies, a revision course specialist and sister company to OIC, with over 23 years' experience in delivering premium revision courses in the UK and internationally.

No. 1

UK Independent School for
A-Level results

92% of grades received by
OIC students in 2019
were A*-A

**“ Simply put... I went from a D to an A... with only
3 sets of sessions... ”**

Sam, Student

There are three fundamental benefits of the OIC online IGCSE revision programme:

- 1 Small groups**
Courses are intensive, providing a structured timetable and environment, geared towards concentrated study and away from distractions. Our teaching approach is based on the tutorial system employed by the universities of Oxford and Cambridge, involving small study groups, each with their own expert tutor.
- 2 Our Tutors**
We have a core of tutors, many of whom work for us, and who we know are experts in what they do. Our tutors include OIC mentors, PhD students, and even some GCSE and A Level examiners.
- 3 Exam Practice**
Providing students with the opportunity to consolidate what they have learned throughout the programme. Students are periodically provided with sample exam questions and past papers. Comments and exam technique are included as a fundamental element of the tuition.

Academic Content

OIC Academy's Digital Revision Programme introduces students to key subjects for IGCSE. The programme will cover content from both CIE and Edexcel exam boards. Tutors from Oxford and around the UK will introduce students to new content, as well as revising topics that participants have already covered. Students will learn important **exam techniques** and are provided with **practice questions**. Small group tuition allows each student to review areas that they may have struggled with previously. Students will also receive **written feedback** on their **practice papers** set throughout the programme. There is **no pre-recorded content**. You will be taught online by our **tutors in Oxford** and around the UK and benefit from the same high-quality teaching.

Subjects offered

- Maths
- Biology
- Chemistry
- Physics
- Economics

“ Thank you for yet another excellent revision course for my daughter. She has really benefitted from the time and patience that this course and the fantastic tutors provide. ”

Mrs. S Dorset, Parent
