

# Digital February Half Term IGCSE Revision Programme

“

Simply put... I went from a D to an A...  
with only 3 sets of sessions...

Sam, Student

Oxford International College (OIC) Academy's Digital February Half Term Revision Programme is a relatively new addition to the OIC portfolio, for students wanting to consolidate their IGCSE subject understanding, and to ease some of the pressure ahead with regards to their upcoming revision schedule.

With exams fast approaching by the time students reach the February Half Term, this is a great opportunity for them to begin the intensive revision process. Some students will have already undergone their mock exams and will have a greater understanding of the areas in which they require additional support. For those with late mocks still to come, a February Half Term Revision Programme is the perfect preparation.

This programme is delivered in partnership with Oxford Science Studies, a revision course specialist and sister company to OIC, with over 24 years' experience in delivering premium revision courses in the UK and internationally.

There are **three fundamental benefits** of the OIC Academy digital IGCSE revision programme:

1

## SMALL GROUPS

Courses are intensive, providing a structured timetable and environment, geared towards concentrated study and away from distractions. Our teaching approach is based on the tutorial system employed by the universities of Oxford and Cambridge, involving small study groups, each with their own expert tutor.

2

## OUR TUTORS

We have a core of tutors who we know are experts in what they do. Our tutors include OIC mentors, PhD students, and even some GCSE and A-Level examiners.

3

## EXAM PRACTICE

Providing students with the opportunity to consolidate what they have learned throughout the programme. Students are provided with sample exam questions and past papers. Both subject content and exam technique are included as a fundamental element of the tuition.

# A-Level

revision classes can also be provided on a one-to-one basis.

For further information please contact **our admissions team** at [shortcourses@oxcoll.com](mailto:shortcourses@oxcoll.com)

## ACADEMIC CONTENT

OIC Academy's Digital Revision Programme introduces students to key subjects for IGCSE. The programme will cover content from both CIE and Edexcel exam boards. Tutors from Oxford and around the UK will introduce students to new content, as well as revising topics that participants have already covered. Students will learn important **exam techniques** and are provided with **practice questions**. Small group tuition allows each student to review areas that they may have struggled with previously. Students will also receive **written feedback** on their practice papers set throughout the programme. There is **no pre-recorded content**. Students will be taught online by our tutors and benefit from the same high-quality teaching.

## SUBJECTS OFFERED

- » Maths
- » Biology
- » Chemistry
- » Physics

## USEFUL INFORMATION

- » 2022 Course Dates: Saturday 19th to Thursday 24th February

## Leading OIC to No.1

Yasmin Sarwar joined Oxford International College in 2017 as its Chief Education Officer. Under her academic leadership, OIC has gained global recognition as the UK's number one A-Level college. She is also the co-founder of a school named 'Britain's brainiest school' for topping the A-Level tables for nine consecutive years.

Throughout her 20-year plus career, Ms Sarwar has sent over 500 students to medical schools and over 400 to world-class institutions, including Oxford, Cambridge, London School of Economics, Imperial College London, UCL, Harvard, and Hong Kong University. Ms Sarwar is on the interview panel for Medicine at several top Russell Group Universities, enabling her to design successful personalised academic and career plans for students.
