

# OXFORD International College

A NORD ANGLIA EDUCATION SCHOOL

## **Aims and ethos**

OIC was created in Oxford in 2003 to provide a new kind of education: a career-oriented growth centring around a true passion. In 2023 we opened our second college in Brighton.

From the moment our students arrive at Oxford International College to the final A-Level Results Day, we guide them, teach them, and strategise the best approach to get them exactly where they want to go.

Our three-pronged curriculum is centred around:

- **Academic excellence**
- **Career development**
- **Personal development**

Looking ahead from the start, we offer a unique programme of Strategic Global Pathways – comprehensive step-by-step university guidance tailored for each specific student and university. As a result, we have sent students to top universities worldwide, including the UK, the US, Ireland, Hong Kong, Singapore, or Japan.

Our experienced, well-connected Supercurricular Department offers bespoke career guidance to each individual student, aids them in finding their own passion, and suggests concrete ways in which it can be translated into a career.

To support our high achievers, there is a comprehensive welfare system in place.

**Our excellence is not accidental: it is a result of a comprehensively designed, strategic system to light up a passion and foster an environment in which it can flourish.**
